Honoring Our Heroes

By Megan Kastner

6th grade reporter

Congrats St. Chris! We know that we are all winners, but now we have a huge trophy to prove it! During the past Memorial Day, the American Legion gave awards to those who honored our heroes, the men and women who keep us safe. There were quite a few categories: cheerleading, band, honorable mention and best of all, the float.

Due to Mrs. Brown, Mrs. Gehring, Mrs. Nappi, Mrs. Riordan, and Mrs. O'Heir's hard work, St. Christopher's name was called and with pride, Mrs. Lederer received the trophy.

Our float is a piece of art and was sure to win, but the dedication of the generous volunteers who helped create it and the members of our military are the people we should honor and thank.

Today and for many years, we will have our trophy and float to remind us of our values: hard work, determination, generosity, and volunteerism. †

Grade Four Reports on Field Day

By Christian Young

4th grade reporter

Wednesday, May 16 we had Field Day at Baldwin Park. It was very fun! It was more than fun, it was extraordinary! Our team was the white team. We had good teammates too. The hardest opponents was the blue team. It had Thomas York, Jonathan Massa and other people. After lunch, we started to have a winning streak! We needed organization. At the last game, we had the tug of war. Then, I launched an idea, just walk the other way! I circulated my idea to everyone- well, I tried! Then, when it was over they said the white team came in second place. The Blue team came in first. It was very fun though! †

Fun at Field Day

By Kelly Powell

The field day this year was extraordinary. Every teammate on my team did their best. Our opponents did

Dear Dr. Dianne,

Where is a good spot for my family to go on vacation?

-Bored of the Beach

Dear Bored of the Beach,

Since I am not a beach person, I always go to one specific place: Disney World! It is a blast for everyone no matter what your age. There are two amazing water parks and four main parks. MGM is a great place to go to if you like to watch plays. If you like learning about different cultures, go to EPCOT. Animal Kingdom is like a zoo but better. Its fun to see all the exotic animals and go on safari rides. If you are lucky, you might be able to drive the safari boat like I did. There is a new ride in this park that makes people go nuts! It's Expedition Everest! It is such a crazy and fun ride.

Magic Kingdom really explains itself. The minute you go to the park, the magic begins. From the three mountains to "It's a Small World," everything is exciting and fun. Just when you are ready to go, the fireworks start and they are amazing. There are also "magic" hours when for guests of the Disney Resorts; you get to come early and stay late. Overall, Disney is so much fun, it's hard to explain. I hope you are interested and experience the magic yourself! †

their best too. I was having such a blast, I didn't think about winning or losing. I think of each team as one little organization. I heard some people say that they were going to win. I call that determination. In the tug of war, we launched all of our energy to pull! At the end, the announcer circulated out the ribbons. Even though we lost, I had a lot of fun! †
